

## Philippians Home Study Directions

---

*Please remember that all home study is optional. Please don't feel that you can't come to class or participate if you haven't done the homework. We will all have good and bad weeks. Homework is just for you and no one is going to check up on you to make sure you have done it – unless you ask them to.*

- *A **Class Notes** page will be handed out each week for you to jot down notes on during class.*
- *The **Home Study** pages will contain the following things:*
  - *The **Memory Verse** is for those who desire to memorize scripture. If you enjoy memorization, give it a try. If not, perhaps try memorizing just the underlined portion.*
  - *The **Basic Study** questions are for those with limited time. So do these first.*
  - *The **Deeper Study** questions are for those desiring to go deeper into the ord.*
  - *The **Suggested Questions for Small Group Discussion** is just suggestions of how to use small group time. Don't feel constrained by them in any way. Pay attention to where the Holy Spirit is leading the group each week. If small group size prohibits good discussion, try breaking into smaller groups of two or three when appropriate.*

*If you are absent one week, you can get a copy of the handouts and PowerPoint presentation by going to the North Avenue Website at: <http://www.napc.org/women/>. They should be on the website after class each week.*

*If you have questions and want to get in touch with April, her phone number is 404-875-0431 ext 220. And her email is [april@napc.org](mailto:april@napc.org). And you can befriend her on Facebook too.*
